October 9, 2016

Dear Friends,

In the 18<sup>th</sup> year of National Case Management Week, I would like to express my support and gratitude to the Case Management Society of America for their commitment to improving the quality of health care on Long Island.

CMSA case managers work tirelessly on behalf of individuals and working families who need assistance in navigating our health care system. There is no question that major medical decisions can often be difficult and life-changing, and CMSA provides its members with the tools and resources necessary to advocate for the best treatment on behalf of their patients. During the week of October 9, 2016, we celebrate the incredible impact that case managers have made on countless lives in Nassau County and across this country.

On behalf of the residents of New York's fourth congressional district, I would like to recognize the substantial difference case managers make throughout our district, state, and nation.

Sincerely,

**KATHLEEN M. RICE**  
Member of Congress
